

Universal
scaler tip

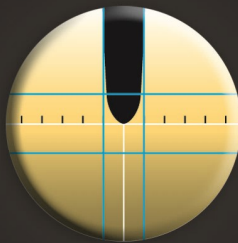

Visual wear
indicator

The Scorpion insert tip is coated with a 2 μm thick and strong titanium nitride layer. To maintain efficiency and for patient comfort the insert has to be changed when the titanium coating has disappeared

Very thin

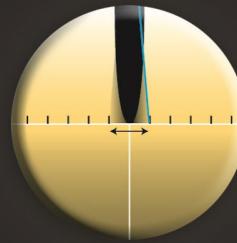

Scorpion tip

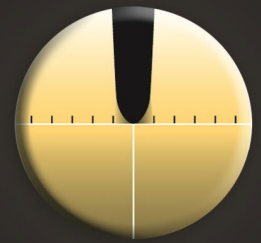

Other tip

Scorpion tip reaches interproximal spaces without difficulty

Very powerful

Scorpion tip

Other tip

A strong cavitation is guaranteed even with a low power scaling device

CLiP
& INSERT-i

Safe Implant Cleaner

Clean implants and restorations without changing your tip !
